

Australian Birds iPhone App

Cameraman and nature enthusiast Steve Sheers along with Melbourne based iPhone App producer iNi inspire, have released a new version of their App for iPad and iPhone - **Australian Birds**

Now with more than 110 birds listed, this unique App presents a video clip, details for each bird including a map of the areas where it can be found and a useful function to mark and recall favorites.

Stylishly designed, **Australian Birds** is an ideal tool for both beginner and experienced Bird watchers alike. Or it can just be enjoyed by the many who appreciate seeing birds in their natural environment.

Australian Birds - Available now from the iTunes App Store.
