- **Clarification - slide005 of Week12 on lab exam marks**

  Posted by Ashesh Mahidadia Monday 13 November 2017, 07:02:59 AM.

  I received few emails regarding the following slide, and realised that what I wanted to communicate was not clearly stated! So I have now modified the slide, please re-read the slide, in case you scored poorly in one of the lab exams. The overall aim is to help you pass the course, not to penalise harshly. Your final marks will be calculated based on your original lab exam marks, so depending on your other marks, you could still receive say PS, CR, DN or HD. In case your final marks are not enough to pass the course, I could increase the marks of the corresponding lab exam to 50% and calculate your final marks.

  All the best for the exam.
