- **Ass2 : Submission Ready**

  Posted by Ashesh Mahidadia Friday 01 June 2018, 08:09:40 AM, last modified Friday 01 June 2018, 08:18:47 AM.

  You can now submit your ass2. If you are doing ass2 individually, you can submit without a group. If you are doing ass2 with a partner, and if your group is not listed online OR you want to change your group, please send an email to cs2521@cse.unsw.edu.au.

  Only one member of a pair should submit, as the submission is stored against the group rather than the individual, and each member will receive the mark awarded to the group.

  Please click on the tab "Make Submission" and submit the following five files for Assignment-2. Please DO NOT submit any other files. For example, you do not need to submit your modified test files or *.h files.

  You need to submit ALL five files together. If you have not implemented say Part-4, submit an empty file.

  - PQ.c

- Graph.c
- Dijkstra.c
- CentralityMeasures.c
- LanceWilliamsHAC.c

The submission systems runs simple tests (already available in the specs) for 'Dijkstra' and 'CentralityMeasures'. All the files used by dryrun are available at http://www.cse.unsw.edu.au/~cs2521/18s1/ass/ass2-dryrun/ . Later these and other functions will be properly tested by the auto-marking system.

- The due date/time is now extended to 11:55pm Sunday 03 Jun.
