THE UNIVERSITY OF NEW SOUTH WALES

NOTICE OF MEETING

A meeting of the **COMPUTER SCIENCE AND ENGINEERING TEACHING COMMITTEE** (CSE Teaching Committee Meeting 14/5) will be held at 2:00pm on **Friday, 22 August 2014**, in Room 103 (HoS Meeting Room), Computer Science Building.

Enquiries concerning this agenda should be directed to John Shepherd, extension +61293856494, jas@cse.unsw.edu.au.

**John Shepherd,
Committee Chair**

Quorum: 7

A G E N D A

1. **Apologies and welcome**

2. **Minutes of Previous Meeting**

3. **Business arising from previous minutes**

   Including a report on the status of the course/stream/program proposals.

4. **Report from Chairs of Working Groups**

   Four working groups on aspects or curriculum/teaching were established last year:

   - Service Teaching ... report on implementing recommendations
   - Teaching Practice ... report on implementing recommendations
   - Core Curriculum ... report on deliberations (Jingling)
   - Skills Curriculum (Program Outcomes) ... report on deliberations (Richard)

* 5. **Advanced Masters Program**

   CSE has withdrawn from the Faculty's MEngSc degree. Our only Postgraduate Coursework degree is now the MIT program. The CSE stream in the MEngSc program attracted few students, with most opting for the MIT, so withdrawing from it should have little effect on PGC enrolments. However, we would like to boost PGC enrolments, and Eric Martin is proposing a new Advanced Masters program to complement the MIT (which is currently predominantly a retraining degree).

*6.   Effects of new BE(Hons) Program

As reported at the last School Meeting, the Faculty is currently in the process of bundling all of its existing degrees under a single program code (3705). Existing programs will all become streams under the BE(Hons) program. The Stream Rules for the BE(Hons) largely fit in with our existing programs, but there are some new progression rules which may affect how our students advance through their programs.

7.   Streams in the BSc(Comp Sci)

The Computer Science program has six specialist streams (such as Databases, Networks and AI). There have been discussions in the past about revising these. Alan Blair wishes to continue that discussion.

8.   Next meeting

The next meeting scheduled for Friday 19 September.

9.   Any other Business
